PLS LOGISTICS EXPANDS LTL SERVICE

FOR IMMEDIATE RELEASE: Rochester, PA – PLS Logistics announces the expansion of its transportation logistics capabilities to include LTL service to support clients who have smaller, more frequent freight requirements. These capabilities will include both standard and guaranteed LTL service, along with expedited ground and volume shipment moves.

PLS has established an extensive network of proven common carriers who work with our nearly 300 logistics professionals to provide exceptional regional and national LTL distribution services and coverage. PLS specializes in transportation optimization by managing shipments from start to finish ensuring maximum efficiency and costing savings. This new LTL service offering is supported by PLS' state-of-the-art web-based transportation management system (TMS), and delivers a fully-integrated solution to the marketplace.

"We are excited about offering an LTL service as we continually enhance the value we provide to existing customers. This also strengthens our position as we expand into new markets," said Scott Boyer, Executive Vice President of Sales and Marketing at PLS. "PLS has made significant investments in technology, people and processes in support of integrating our LTL service offering into our portfolio of transportation services. We believe the addition of this service will fuel our strong growth initiatives in the logistics and supply chain arena."

ABOUT PLS: PLS Logistics Services delivers non-asset based logistics solutions to industrial shippers of metals, lumber and building materials, automotive, nuclear, oil and gas and industrial equipment industries. PLS partners logistics professionals with industry-leading technology to provide value for clients by optimizing their supply-chain efficiency, improving service and reducing the total cost of transportation.
